

ENVIRONMENTAL POLICY

Salumificio Pedrazzoli S.p.A., aware that its activities—the production and slicing of deli meats—can generate effects that interact with the environment, recognizes the importance of adequate management and control of its environmental aspects, as well as raising awareness among its staff and collaborators. Therefore, our company adopts a policy that defines the corporate commitments and the objectives to be achieved

OUR COMMITMENTS

- a) Maintain compliance with all current environmental laws and regulations applicable to the company and its environmental aspects.
- b) Understand the internal and external context (environmental, economic, social, regulatory, etc.) in which the company operates to identify the needs and expectations of interested parties and constantly seek their satisfaction.
- c) Promote competence, awareness, and involvement of all operators by communicating objectives and involving people in their achievement.
- d) Provide opportunities and incentives for every collaborator through training, motivation, and involvement to contribute to the constant improvement of the Environmental Management System.
- e) Continuously seek appropriate and efficient solutions, processes, and operating methods to remain technologically advanced, adopting standards promoted by the best available technologies.
- f) Support, in the medium and long term, the development of practices and solutions that increase corporate energy efficiency and encourage the use of energy from renewable sources.
- g) Prevent pollution by seeking to minimize environmental impacts.
- h) Examine the potential environmental effects of all new or planned developments of activities, products, and services; monitor, study, and optimize the consumption of energy resources.
- i) Continuously monitor and improve, where possible, the performance of environmental aspects, with particular attention to atmospheric emissions, waste production, vehicle traffic, electricity, and water.

- j) Promote external and internal communication of the policy, objectives, programs, and environmental performance, maintaining close dialogue with various interested parties (customers, employees, authorities, control bodies, etc.).
- k) Raise awareness and involve suppliers by prioritizing technologies and products characterized by minimal environmental impact.
- l) Encourage knowledge and updates for all collaborators regarding the company organization, technical and methodological aspects, their roles and responsibilities, and the environmental impacts produced by the activity.
- m) Adopt procedures that guarantee effective risk monitoring and the ability to intervene promptly in the event of accidental events and emergency situations.
- n) Seek alternative solutions for the development of innovative and sustainable materials related to the packaging of sliced products, reducing their environmental impact at the end of their life and favoring recovery.

ISO 14001:2015 CERTIFICATION

To achieve the described objectives, the Company Management utilizes an Environmental Management System (EMS) compliant with the **UNI EN ISO 14001:2015** standard. This allows the company to implement an overall management approach to environmental issues, addressing them globally, systematically, consistently, and with a view toward continuous improvement.
